

Friday the 13th of March 2015 dawned a beautiful clear day, perfect for the inaugural Agribusiness Charity Golf Day. 24 teams started off at high noon for a day full of fun and golf shots that will be talked about for years to come. Observers were kept on the edge of their seats on the 18th hole, waiting for someone to sink the elusive hole in one and drive away in a new Black Toyota Hilux. Although nobody took the Hilux home, everyone did take home memories of a great day of golf that helped two local organizations make a difference in our community.

With your support we raised in excess of \$22,000.

This has allowed us to purchase a special Fresh Frozen Plasma (FFP) freezer for the Dalby Hospital. FFP is concentrated plasma used for severe haemorrhaging, especially post-delivery major bleeds.

“What you have done today will save lives”

Colleen Rasmussen – Director of Nursing, Dalby Hospital.

We were also able to donate \$7,000 to Dalby BUSHkids, a community organisation that offers a diverse range of health services to children and families living in rural Queensland. Their clients are children who are experiencing some behavioural, emotional, social and/or developmental difficulties and are unable to receive support elsewhere in the community. BUSHkids also provide support for parents and offer developmental course offering skills that assist parents.

We started this journey simply wanting to give back to our local community. As a committee we are proud of what we have achieved and can't wait to do it all again next year. None of this would have been possible without your support and assistance, so thank you.

If you would like to be a part of our 2016 day please do not hesitate to let us know **now** so that we can make sure your 2016 spot is reserved.
